

# Northwell Health Residents and Fellows Employee Health Services Medical Clearance Requirements

To ensure your safety and the safety of our patients, all of the following requirements must be completed prior to the commencement of your residency or fellowship program as per NYS DOH and/or the Northwell Health policy. These services will be completed free of charge at your Employee Health Services (EHS) appointment. **You will receive instructions from Talent Acquisition on how to schedule your EHS appointment.**

Please review the medical clearance requirements listed below as well as the information about the mandatory blood draw and drug screening at LabCorp.

If you currently reside within the U.S.\*, **you are required** to have your blood drawn and drug screening completed at LabCorp before your EHS appointment.

EHS must receive the results from LabCorp before your EHS appointment. Therefore, you must visit a LabCorp NO LESS than 5 business days before your scheduled EHS appointment. You don’t need to wait! Visit LabCorp ASAP.

LabCorp screening instructions and lab requisitions will be emailed to you from [WorkwellResidents@northwell.edu](mailto:WorkwellResidents@northwell.edu) .

*\*Residents and fellows who will not arrive to the United States within 10 days of their start date will complete the lab requirements at their EHS appointment and do not have to visit a LabCorp.*
