

PRODUCT MANAGEMENT DEVELOPMENT PROGRAM

Imagine

A PLACE WHERE LEARNING NEVER STOPS

Where you start in your career at Travelers is only the beginning. With thousands of different jobs around the world, the only limit to opportunity is your ambition and imagination. What you learn in one area can lead to unexpected places, into careers you may have never imagined.

During this rotational program, you'll experience facets of Product Management, joining either our Personal Insurance or Business Insurance Select Accounts team. After best-in-class training on insurance, actuarial, underwriting, and technology, you'll work alongside members of our leadership teams, strengthening your abilities to think critically, creatively, and strategically. In the end, you'll land an impactful Product Management role, joining a diverse group of alumni and leaders across the organization.

"I was looking for a role that would let me continue to develop my analytical skills while also allowing me to make a direct impact on the business through corporate strategy and decision-making. The PMDP has afforded me the ability to apply my mathematical background to work while also providing me a very strong base of insurance knowledge. Outside of personal career development, the PMDP has also provided me an amazing support system of caring individuals who truly want me to succeed." – Nishanth, PMDP participant
