

INFORMATION GUIDE FOR TECHNICIAN OCCUPATIONS SELECTION SYSTEM EEI TECH

TEST #5107

INTRODUCTION

The **5107 Edison Electric Institute (EEI) TECH Test** is a group of 4 short aptitude tests designed and validated to aid in the selection of candidates for electric utility industry technical occupations. This guide contains strategies to use for taking tests and step by step instructions on accessing study materials.

TEST SESSION

It is important that you follow the directions of the Test Administrator exactly. If you have any questions about the testing session, be sure to ask the Test Administrator before the testing begins. During testing, you may **NOT** leave the room, talk, smoke, eat, or drink. Since some tests take several hours, you should consider these factors before the test begins.

All cellular/mobile phones, pagers or other electronic equipment will NOT be allowed in the testing area.

Your answers to the questions are multiple-choice and will be read by a scanner. For your answers to be read accurately by the scanner, you must fill in the circles completely and erase completely any answer you wish to change.

Expect to be at the testing session for approximately 2-1/2 hours. No study aids are allowed when taking this test.

INFORMATION GUIDE FEEDBACK

At the end of this guide, you have been provided with an Information Guide Feedback page. If a procedure or policy has changed, making any part of this Guide incorrect, your feedback would be appreciated so that corrections can be made.

TECHNICIAN OCCUPATION (TECH) STUDY MATERIALS STEP-BY-STEP INSTRUCTIONS

To help you prepare for this test, Edison Electric Institute, the test developer, has prepared an informational brochure and detailed practice tests. We recommend that you read through all practice tests and the brochure. The materials are online and are accessible from any computer with internet access. From the website you may read or print the materials.

***NOTE:** Pop-up blockers may not allow the website to run correctly. If you use Pop-up blockers, it is recommended that they be turned off prior to accessing the site.

From any computer with internet access, type <https://secure.eei.org/eitests/onlineproducts/> in the address bar to access the practice tests and test brochure. Type the above address exactly as written.

The site requires a username and password, assigned to Southern California Edison. To log in to the sites, enter the following information (case sensitive).

Name: paper

Password: pen

The screenshot shows the top navigation bar of the EEI website. On the left is the EEI logo with the text "Edison Electric INSTITUTE" and "Power by Association®". On the right, a dark blue bar contains the text "EEI Test Preparation Resources". Below this bar is a light gray navigation menu with links for "Home", "Practice Tests", "Brochures", and "Log Out".

The screenshot shows a login form titled "Login". Below the title is a horizontal line. The text "Welcome to the EEI Employment Testing Test Preparation Resources." is displayed. Below this is a message: "If you are unable to log in, your browser may not be enabled to accept cookies." The form contains two input fields: "User Name" and "Password". To the right of the "Password" field is a "Log In" button.

Click on “Practice Tests” or “Brochures”

Welcome

E EI's test preparation resources were developed to provide you with tools and information that will help you prepare for a career in the electric energy industry. Additional resources for improving your reading, math, electricity, and mechanical comprehension skills may be found at your local libraries and bookstores.

Practice Tests

The practice tests were developed to help you prepare for the E EI employment tests. Each practice test battery resembles the real test battery in both form and content. Keep in mind that the practice tests will differ in some ways from the real tests. To access the practice tests, click on the Practice Tests image or choose Practice Tests from the main menu above.

Brochures

The brochures provide information on employment test batteries associated with jobs in the electric utility industry. Every effort has been taken to ensure that each test battery meets all anti-discrimination laws and regulations. The employment tests have been found to be statistically valid and fair for all test takers. To access the online brochures, click on the Brochures image or choose Brochures from the main menu above.

Then, click on “Technician Occupations” (found on the left hand side of the webpage). From there you will be able to access the specific practice test modules or test brochure. You may print the documents if you wish.

Introduction to the Practice Tests

The practice tests were developed to help you prepare for E EI employment tests. Each practice test component resembles the actual test components in both form and content. Therefore, taking the practice tests will give you a good idea of what to expect on the actual tests.

Keep in mind that the practice tests will differ in some ways from the actual tests. For example, the number of questions you find on a practice test may be fewer than the number of questions on the actual test. Answers and explanations will be provided for your review when you have completed each practice test.

Preparing for the Tests

Books and self-study guides on different topics can be found in our Test-Taking Tips documents. Each document includes resources for test taking strategies and preparation. Additional resources for improving your reading, math, and mechanical comprehension skills may be found at your local libraries and bookstores.

Accessing the Practice Tests

Use the navigation panel on the left side of the screen to learn about a test battery. To access a practice test, click on the links located on the description page of the test battery.

TROUBLESHOOTING GUIDE TO FREQUENTLY EXPERIENCED PROBLEMS

Pop-up blockers may interfere with your ability to access the study materials and practice tests. If you have pop-up blocker software installed, you may need to temporarily disable it.

Anti-virus software may interfere with your ability to access the materials. If you are experiencing problems, you may want to consider temporarily adjusting the settings on your anti-virus software.

If you experience an error message, such as “Internal Server Error,” simply close your browser window, wait a few minutes, and try again.

If you are still having problems, please call EEI at the help number listed on the website.

INFORMATION GUIDE FEEDBACK

Please use this page to notify us of any changes in policies, procedures, or materials affecting this guide. Once completed, return to:
