

REACH Program

U.S.

Our Reinsurance Achievement Program— or REACH—is operated by our Willis Re, Reinsurance division. We are seeking 2017 graduates who want a solid foundation while they begin their career in the reinsurance industry. REACH is a direct hire program.

Apply Now

Willis Re is a growing, entrepreneurial company in a niche industry, and offers true career opportunities to qualified applicants. Within the REACH Program, we are currently recruiting exceptional individuals for Reinsurance Analyst positions. The role of the Reinsurance Analyst encompasses a wide range of activities, including data analysis, preparation and dissemination of client information to reinsurers, interaction with our Contracts, Claims, and Accounting teams, as well as special projects. This broad-based introduction to the reinsurance sector will position you for significant future growth opportunities within our company.

Our team-oriented culture will promote your development, enabling you to gain a balanced skill set, including acumen in analysis, negotiations, and sales. As a new Analyst, you will benefit from a tailored training program facilitated by our industry-leading Willis Towers Watson Academy. This program encompasses formal internal technical instruction, trade association programs, as well as mentoring from senior personnel. This program supplements the on-the-job experience and oversight that you will receive on a day-to-day basis, working closely with our experienced professionals in managing the needs of our clients and reinsurers.

As you gain experience and demonstrate your capabilities, we provide you with increased client interaction and more responsibility. Continued strong performance creates substantial opportunity within our firm, such as management of client accounts and the international business relationships that support them.

Candidate characteristics:

- Bachelor's degree from a four-year college or university
- Diverse, well-rounded background
- Ability to apply basic mathematical concepts (higher quantitative skills a plus)
- Excellent work ethic and organizational skills
- Strong interpersonal skills and team orientation
- Innovative thinker and creative problem solver
- Highly motivated and takes initiative
- Solid written and verbal communication skills (proven public speaking and presentation skills a plus)
- Proficient with Information Technology, particularly Microsoft Office products
- Authorized to work in the country to which you are applying on a permanent full-time basis
