

Imagine

A PLACE WHERE
LEARNING NEVER STOPS.

Where you start in your career at Travelers is only the beginning. With thousands of different jobs around the world, the only limit to opportunity is your ambition and imagination. What you learn in one area can lead to unexpected places, into careers you may have never imagined.

As a Business Intelligence and Geospatial (BIG) Development Program participant, you'll grow your analytical, technical, and solution design skills. You'll work with cutting-edge technologies in a collaborative culture and receive hands-on training that positions you for success, all while you're learning to lead initiatives and projects. You'll forge business partnerships as you create ways to deliver value and leverage business intelligence and geospatial tools that turn insights into actionable business plans.

BUSINESS INTELLIGENCE

Undergraduate or graduate degree in AI/Cognitive Science, Business Analytics, Computer Science/IT, Economics/Ecometrics, GIS, BIS/MIS, Mathematical disciplines.

Intellectually curious about utilizing data to make insights and improve process, strong judgment and decision making skills, and passionate about client service.

Learning agility for dashboarding, querying, and database technologies to influence and deliver quality projects.

GEOSPATIAL

Undergraduate or graduate degree with major focus in Analytics, Computer Science, Geography/GIS.

Enthusiastic team player who is motivated to take on new technologies and innovative projects, meticulous attention to detail, and strong presentation skills.

Previous GIS or Geospatial internship preferred, strong working experience with ESRI ArcGIS suite, and an accompaniment of strong python programming literacy preferred.

Our Business Intelligence leaders are passionate and committed to developing the next generation of data professionals.

WORK + PLAY

In BIG, the challenging and innovative work is only half of the fun.

- **Huddles.** Develop your awareness of various projects in the business intelligence landscape.
- **Innovation Jam.** Transform our business with new ideas at this hack-a-thon style event.
- **Optional Rotations.** Tailor your own development for projects and assignments.
- **Cutting-Edge Technologies.** Learn about latest dashboarding, querying, and geospatial technologies.
- **Development Resources.** Peer Advisors and Mentors accelerate your socialization to Travelers.
- **Tailored curriculum.** Based on 50+ competencies, BIG offers courses that allow you to thrive in our business intelligence job families.

LOCATIONS

Hartford, CT and St. Paul, MN.

Our employees across the world competed in the Innovation Jam to bring new ideas to life and revolutionize the ways in which we do business.

“BIG allowed me to understand how the Business Intelligence field is growing and how it plays a role within Travelers. One major benefit is the networking -- building a strong network between the current participants in the program and the alumni has been very beneficial. BIG also has many events in which executives interact with us, so we get a chance to meet and talk to a lot of Managers, Vice Presidents and higher-ups, which is a great experience.”

– **Jenny, BIG Participant**

DID YOU KNOW?

Our employees are impressive. Doing the right thing is at the heart of our culture, and that includes doing right by our communities.

143,500
total volunteer hours reported by our employees in 2017

1,300
local Hartford students taught by 173 of our employees in 2017

720
volunteers who helped build 6 playgrounds around the country

\$22 million
donated to the communities where we live and work in 2017
